

W.I.S.E. MEMBERS' INTERESTS

The following list of surnames are being researched or are otherwise of interest to members of the W.I.S.E. Family History Society. It includes, besides just the surnames:

1. Any other names associated with the surname, such as given name(s).
2. The general period of time during which the surname is of interest; eg., 16th C, 1740-1800.
3. The town, city and/or townland in which the surname is to be found.
4. The county/shire of the search (please use the Chapman codes).
5. The country of the search.

All this information can be entered on pre-printed sheets available at all WISE meetings. Send the filled in sheet to T. Quirke, 2310 Juniper Court, Golden 80401-8087 or give it to him at a meeting. Alternately, simply list the information you have about names in which you are interested in the order above. You can then send it along with your name, address and e-mail to the address above or e-mail it to: T2quirke@aol.com. The information can then be entered into our data base and thus subsequently printed out for study at any WISE meeting.

In this way everyone's interests are available to the group and anyone having information or interest in another member's name being searched can contact the member and possibly collaborate, or at least commiserate. In several cases, even in such a relatively small group as ours, two or more people can be found working on the same name or in or near the same locality thus being able to help each other.

The greater the number of names listed the greater the chance of finding mutual interests. There are more than 600 names on the list, including spelling variations, multiple locations, and multiple dates. Don't just look at the list and think to yourself, "my names aren't there" and give up. Put your name there so someone else can recognize your names that are of interest to them and be able to contact you.

When, as, and if you find a name on the list which is of interest to you, as a WISE member you can contact me by USPS, e-mail or at the next WISE meeting to find out how to contact the person researching the surname of interest to you. As a courtesy to those who might be concerned, the name and address of the WISE member researching the name in which you also have interest will not be published on this public Internet site.

T. Quirke
